KRYXIVIA

What's Kryxivia?

Kryxivia is a 3D Play-to-Earn MMORPG built on BNB Chain. As a player, you will explore the city of Kryxivia and the deep, mysterious mine that it was built around. In the mine, you'll find many formidable bosses who drop extremely valuable loot.

Party up and equip yourself if you're to have any chance at surviving the depths.

Kryxivia NFTs

Kryxivia NFTs can be earned by playing and bought and sold through the in-game auction house which can be found in the city.

Each NFT in this catalog can be found at the auction house.

Catalysts

Catalysts take you to alternate 'minelines'. If you use one before you enter, the bosses you encounter inside will be much stronger and drop much more **powerful kryxits** - the magical gems you can socket your items with for new spells and better stats.

Not every **Catalyst** was created equal - some will adjust the difficulty even more than others. The difficulty level is known as the dungeon's Crux level. The higher the **Crux**, the harder the boss and the better the drops.

NFT Pack: Catalysts

Blue **Pack Catalysts**

Increase the mine to Crux 1

Yellow **Pack Catalysts**

Increase the mine to Crux 2

Orange **Pack Catalysts**

Increase the mine to Crux 3

Red **Pack Catalysts**

Increase the mine to Crux 4

Purple **Pack Catalysts**

Increase the mine to Crux 5

Equipment

In **Kryxivia**, putting some hardy materials between you and the monsters in the mine will give you a much better chance of surviving. And while you're at the auction house, why not pick up something that not only protects you but impresses the villagers as well?

Introducing **two freshly-minted**, expertly crafted equipment sets: **Mage and Gold Plate.**

NFT Pack: Equipment

Mage Equipment Set

Mage Sets are parceled for your convenience in a consumable containing the Boots, Chest, Hood and Pants.

You will get random stats in a specific range based on the ILVL of the set.

Gold Plate Equipment Set

Gold Plate Sets are parceled for your convenience in a consumable containing the Boots, Chest, Hood and Pants.

You will get random stats in a specific range based on the ILVL of the set.

Kryxits

Kryxits – the powerful spell gems sourced from the depths of the mine – can be socketed into items to grant them new spells. A **Cyclone Kryxit**, for example, lets a player do a powerful spinning blade attack hitting all enemies around them.

The **purity of that kryxit** will affect how much damage it does.

NFT Pack: Kryxits

Rare Kryxits Pack

This pack contains 3 Rare Kryxits with a minimum purity of 50.

Epic Kryxits Pack

This pack contains 2 Epic Kryxits with a minimum purity of 65.

Legendary Kryxit Pack

This pack contains 1 Legendary Kryxit with a minimum purity of 80.

Potions

When you're stuck between a rock and an angry dragon, a sip from your potions belt can mean the difference between life and death.

Whether you're almost out of life, need a speed boost or just need to hit harder,
we have the potion for you.

NFT Pack: Potions

Heal Potions Pack

This pack contains 10 Heal Potions which restore 50% of your total life (5-minute cooldown in dungeons).
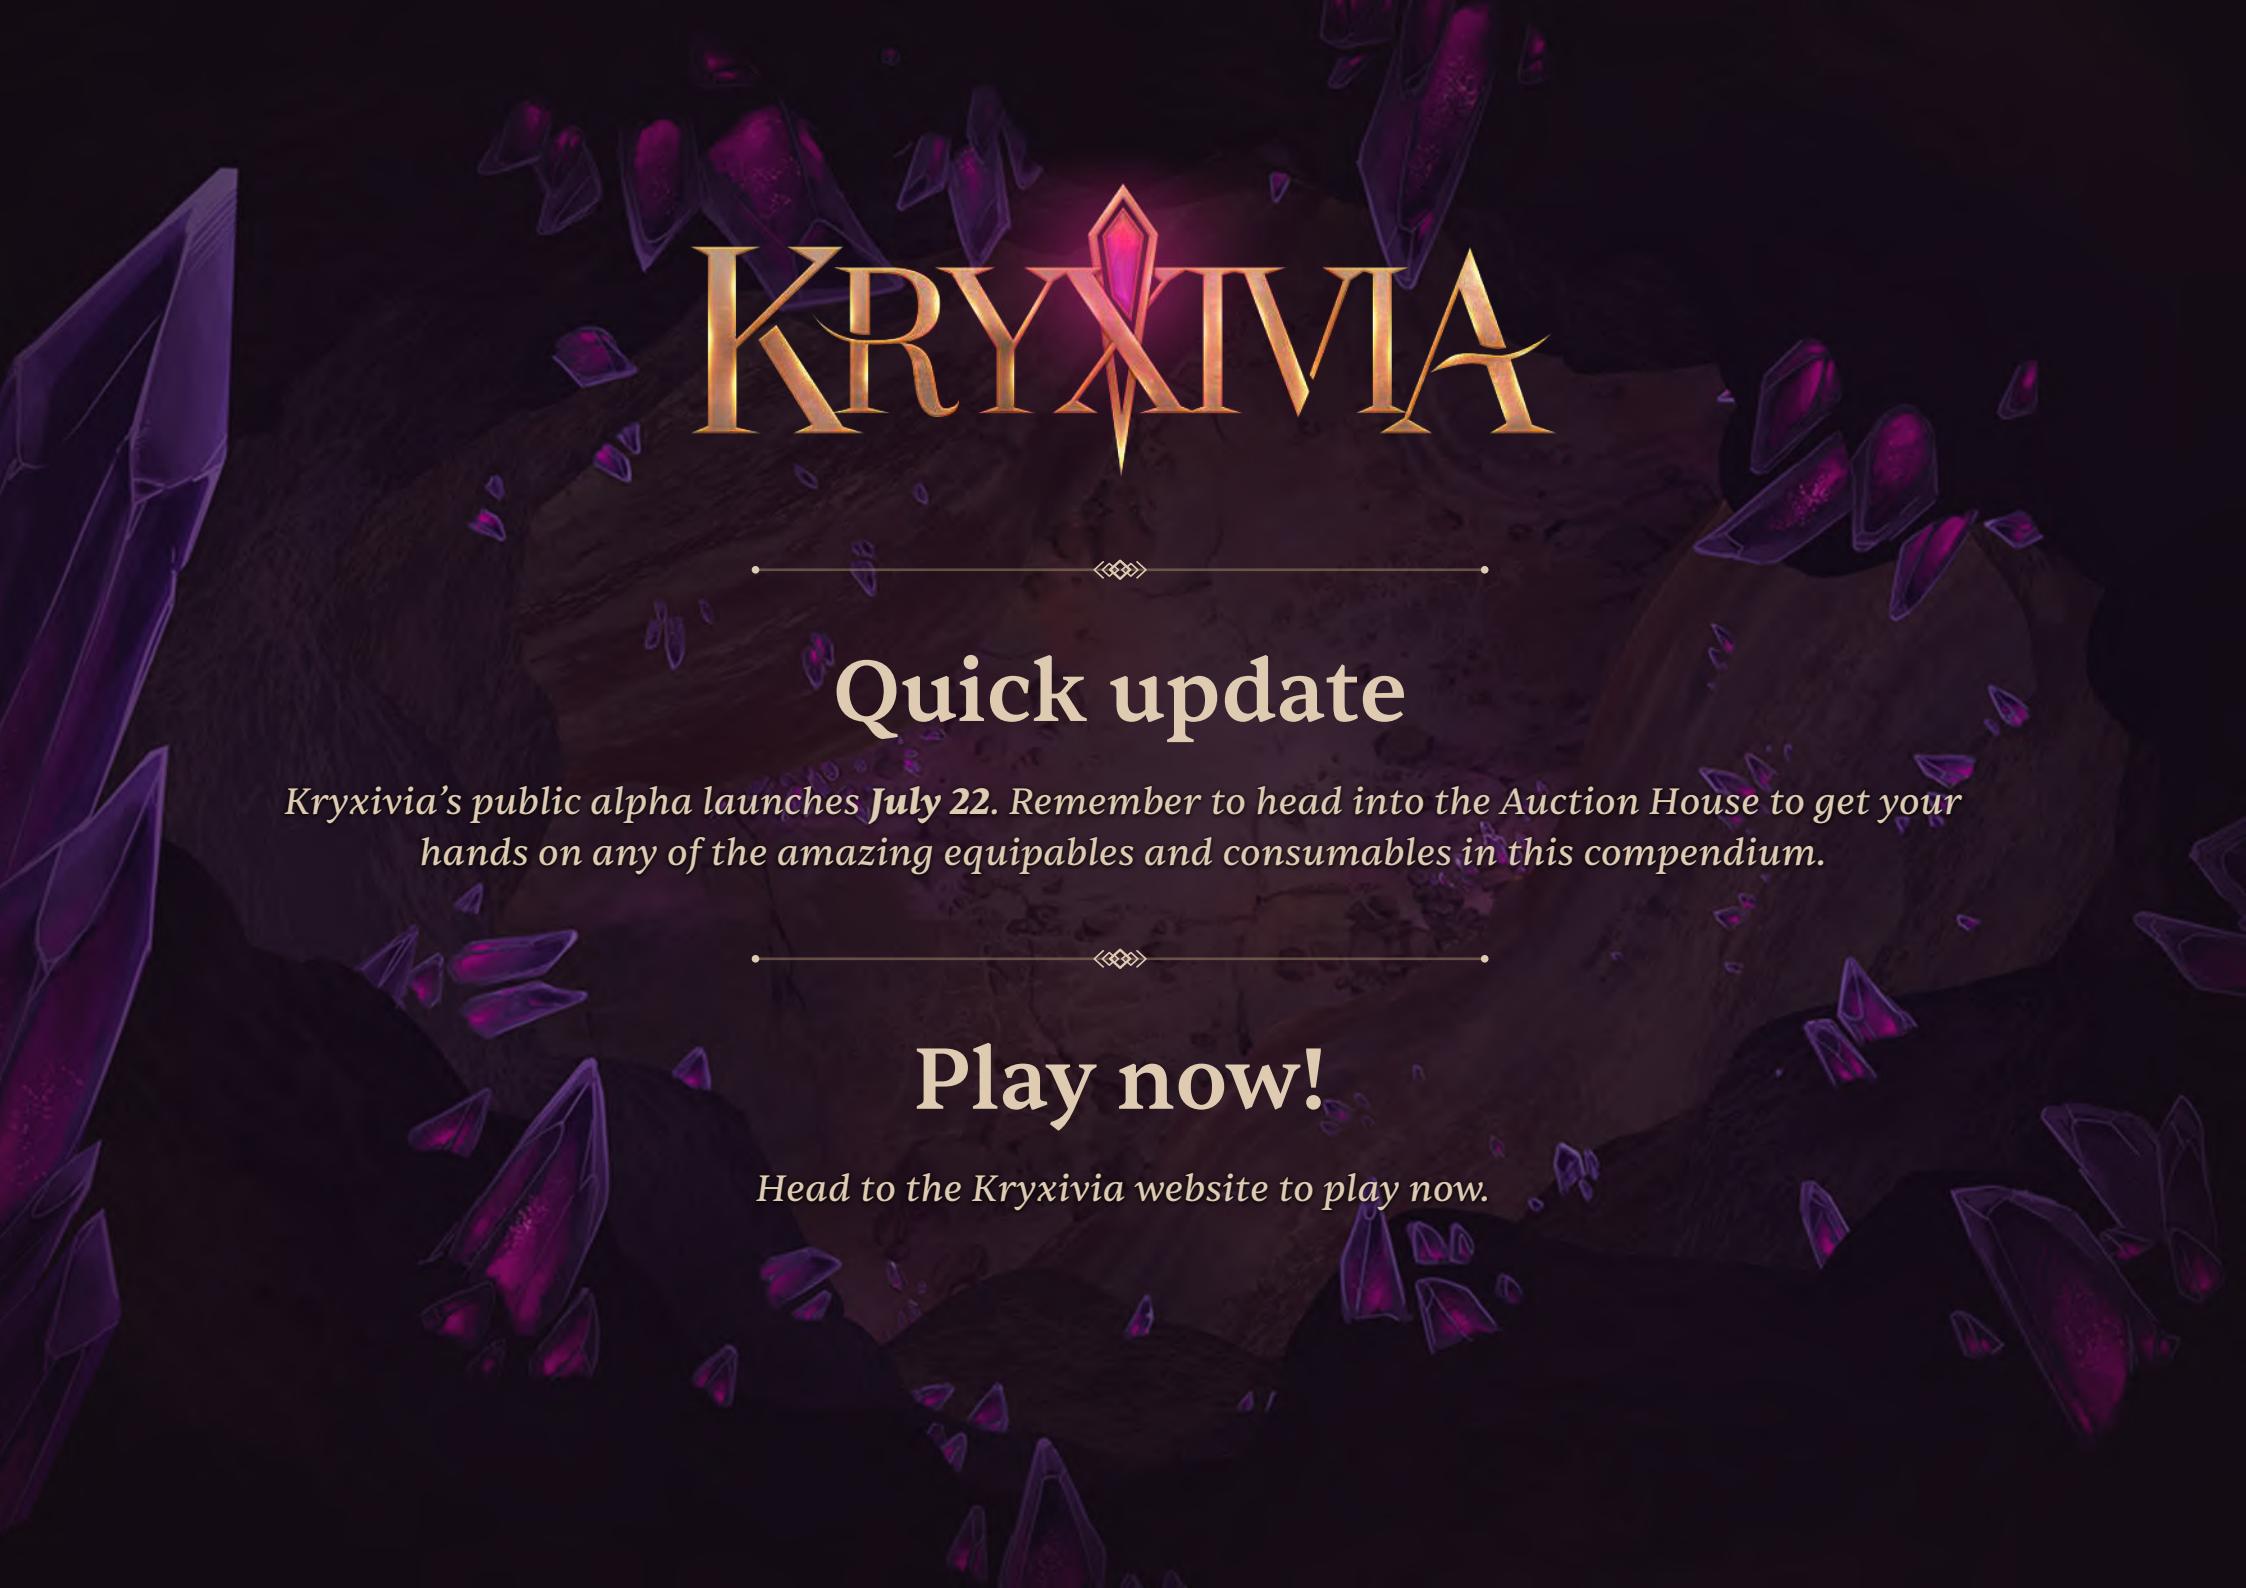

Swiftness Potions Pack

This pack contains 10 Swiftness Potions which grant a 20% increase to base move speed for 1 minute (5-minute cooldown in dungeons).

Lightning Potions Pack

This pack contains 10 Lightning Potions which grant a 30% higher critical strike chance for 10 seconds (5-minute cooldown in dungeons).

KRYXIVIA
